In this workshop, everyone is a beginner; people from all disciplines and levels of experience are welcome, including those who have never picked up a paintbrush. The goal is free - expression, with the emphasis on the creative process rather than on technique or expertise. In the end, what really matters is that you have embarked on the greatest of all human journeys – embracing your own path and confidently following it.

The power inherent in painting is that it can awaken a wild vein of passion that will not go back to sleep. Using only the simple tools of brush, paper and paint, *The Painting Experience* invites you on a highly personal journey of daring and discovery.

Stewart Cubley's way of working is through a respectful questioning process that invites you to extend yourself into new areas of thought and feeling. He has the ability to meet you where you are and to ask the right question at the right time. Stewart is a down-to-earth teacher whose personal interactions allow you to see yourself differently in ways that can be life-changing. He lives in Fairfax Ca and Denali Park, AK.
